

REBECCA CLERKIN
CCSNH Trustee

Rebecca (Becky) Clerkin has been the Library Director at Great Bay Community College for 22 years. She is the first Employee Trustee under NH Senate Bill 326. Becky was confirmed in November 2016 for a 2 year term.

In Becky's position, she is exposed to many aspects of the college. She works directly with **students** every day, supporting them in their research needs. She works closely with **faculty** and sits on Academic Leadership with other department chairs. She is a member of the **staff** of the college, but her position is an administrative one that requires budgeting, strategic planning, and working closely with the **administration** of the college. She has taught as an **adjunct faculty** in the past at Great Bay Community College and will be teaching an on-line course for White Mountains Community College this coming spring term.

Her accreditation work with the New England Association of Schools and Colleges (NEASC) -both within the college and having served on 8 visiting teams to other institutions - makes her keenly aware of the trends and needs in higher education.

Becky has experience serving on two other Boards (Dover Adult Learning Center and Dover Parents' Music Club). Lastly, she was the SEA Steward for Faculty and Staff since 2007 until the split between the 2 groups and continues to be the Staff Steward. She has served on the Contract Negotiations Team – working on 2 contracts for both faculty and staff as well as the recent staff-only contract.
