This screening must be completed by employees only on days when they are scheduled to work onsite. Daily Form is attached at the end of this addendum.
2) Contractors who attended the walk throughs:
   a. PC Construction Company
3) Change “Experience with full responsibility for work of a similar size and within 75 miles of the project site.” To: “Experience with full responsibility for work of a similar size.” Within 75 miles not required.

BIDDER’S QUESTIONS
QUESTION #1: There appears to be some conflicting information regarding furnishing equipment:
   a. The equipment list on sheet A1 has a column labeled “Purchase & Install / Not in Contract”. The items labeled “New to Purchase and Install” lead to believe that all equipment with this tag are to be purchased and installed by the contractor.
   b. Sheet M1 labels most of the same equipment stating, “Owner to supply equipment...”.
   c. General Note 01 on drawing M1 states that all equipment for this project is owner supplied and contractor installed.
   d. Section 01100 1.4 – College Supplied Products states “None”
We believe the intent is for the equipment to be owner supplied. Please confirm this is accurate.
ANSWER #1:
   a. The equipment list on sheet A1 has a column labeled “Purchase & Install / Not in Contract”. The items labeled “New to Purchase and Install” and “Purchase and Install” are all equipment with this tag that are to be purchased and installed by the contractor. The “n.i.c.” tag meaning not in contract are for information only to know what’s in and around the equipment the contractor is installing.
   b. Sheet A1 takes priority over sheet M1 for contractor Purchase and Install equipment.
   c. Sheet A1 takes priority over specification Section 01100 1.4
QUESTION #2: “If the equipment is owner supplied, please provide the name, and contact of the equipment vendor.”
ANSWER #2: The owner supplied equipment is setting in place and can be seen.

QUESTION #3: “Can cut sheets for all the owner supplied equipment be provided?”
ANSWER #3: The owner supplied equipment is setting in place and can be seen.

QUESTION #4: “Will the equipment be purchased ahead of time and stored onsite, or does the contractor need to coordinate delivery with the owner’s vendor?”
ANSWER #4: The owner supplied equipment is setting in place so delivery doesn’t have to be coordinated.

QUESTION #5: “Please confirm the contractor is not responsible for any temporary utility usage costs associated with the project.”
ANSWER #5: The contractor is not responsible for any temporary utility usage costs associated with this project.

QUESTION #6: “Please confirm there will be sufficient space for the contractor to set a dumpster and possibly a small mobile office trailer on the project site.”
ANSWER #6: There will be sufficient space for the contractor to set a dumpster and possibly a small mobile office trailer on the project site. We’ll coordinate location during preconstruction meeting.

QUESTION #7: “Please confirm that the existing space will not be operational during construction. The interpretation is that the space will be vacant and available, and no phasing will be required to keep sections of the space operational.”
ANSWER #7: The kitchen will be used at times for a minimal amount of people. We’ll work coordinate with you and work around you. No phasing necessary.

QUESTION #8: “Are there any As-Built drawings of the structure available? There will be some coordination needed with the existing foundation and new freezer box foundation.”
ANSWER #8: The cross-section of the wall is attached.

QUESTION #9: “It appears most (if not all) existing plumbing and electrical piping in the spaces are surface mounted. Please confirm surface mounted conduit and mechanical piping is acceptable.”
ANSWER #9: Surface mounted conduit and mechanical piping is acceptable.
