EXECUTIVE ADMINISTRATION EXPERIENCE

My administrative and leadership experience is unique and broad, bringing together a diverse portfolio of executive work in academic and student affairs, as well as local and statewide faculty Academic Senate leadership positions. Over the last seven years, my executive roles have included: Assistant Superintendent and Vice President of Student Services at Sierra Joint Community College District (SJCCD), Assistant Superintendent and Vice President of Instruction and Planning at San Joaquin Delta Community College District (SJDCCD), and Vice President of Student Services at Modesto Junior College. Previous to this work, I served as the statewide elected Area A Representative and Executive Committee Member of the Academic Senate for California Community Colleges. My leadership is student-centered and purpose-driven, focusing on reform efforts and transformational change to increase student success, to ensure race conscious student equity, and to foster post-graduation transfer and employment outcomes.

ASSISTANT SUPERINTENDENT, VICE PRESIDENT OF STUDENT SERVICES

JULY 2020-present

Sierra College, SJCCD, Rocklin, California

This position is the senior administrator for student affairs and information technology in a single college district, combining District Assistant Superintendent responsibilities with those of the Chief

Student Services Officer (CSSO). Sierra College serves over 23,000 students annually (13,500 FTES), and the college is currently part of the California Guided Pathways Project. Under my leadership, the college has implemented "Sierra Supports": all students have their own counselor, support specialist, and financial aid professional assigned for their personal success. Over 23,000 students each year are proactively engaged as part of caseloads for progress and momentum points, and we have crafted our second version of a Student Journey Map that has strategies and timelines for student in-reach, as well as a corresponding dashboard of caseload data for practitioners. Ensuring student equity and relationship building is at the center of this work, as the college has prioritized support for Black and African American, Pacific Islander, Latinx, Native, and LGBTQ+ students, and we have invested in additional support counselors for above and beyond equity-centered campaigns.

- Oversee all Student Affairs, Information Technology, and Library/Learning Resources planning, budget, and operations for the district, including Rocklin, Nevada City, Tahoe-Truckee, and Roseville campuses.

- Provide leadership and oversight for Information Technology, including cybersecurity, technology infrastructure, operations, programming, and enterprise applications development.
- Provide leadership for Guided Pathways (CAGP) and Student Equity (SEA) planning, implementation, and assessment.
- Develop and recommend policies, regulations, and procedures to ensure successful and equity-minded Student Services programs.
