Instructor: Gerard Tremblay

## Course Description

### **PSYC112W Human Growth and Development (3 Credits)**

Human Growth and Development explores human development from a psychological point of view. The course emphasizes the developmental stages of the lifespan, along with cognitive growth patterns.

## Prerequisites

ENGL120W strongly recommended

## Required Texts and Resources

Textbook:      Lifespan Development, A Psychological Perspective

Lally and Valentine-French, 2<sup>nd</sup> edition

LADPac number: WMB0003

See the [CCSNH IT Requirements \(https://www.wmcc.edu/academic-resources-for-students/#technology\)](https://www.wmcc.edu/academic-resources-for-students/#technology)

## Course Learning Outcomes

Upon successful completion of the course, students will be able to:

Identify, evaluate &/or compare and contrast the main theories of lifespan development.

Discuss and provide examples of how different theoretical concepts of lifespan development are applied in everyday life.

Evaluate and articulate the core neurobiological processes involved in human development across the lifespan.

Identify and describe the core physical changes that occur across the lifespan and analyze the impact these changes have on course of human development over the lifespan.

Evaluate and communicate an understanding of cognitive development across the lifespan and identify and describe factors that can influence cognitive development across the lifespan.

Explain the process of social-emotional development across the lifespan and identify and describe factors that can influence social-emotional development across the lifespan.

Identify, describe &/or compare and contrast the age-related changes in how people conceptualize and cope with death, dying and bereavement, and identify and discuss the factors that can cause individual variations in this process.

## Methods of Instruction/ Learning Activities

Required Assessment Method 1: Current Event (two or more connecting theory with current happenings around us.

*Course Outcome(s)*: Using this Assessment Method, instructors will measure a student's ability in the following outcomes: 1, 2, 3, 4, 5, 6, 7

Required Assessment Method 2: Application Projects applying theory to current career path (brochure, newsletter, presentation, poster, etc.

*Course Outcome(s)*: Using this Assessment Method, instructors will measure a student's ability in the following outcomes: 1, 2, 3, 4, 5, 6, 7

Required Assessment Method 3: Written Reflections connecting with the reading, course conversations / content, videos shared, etc.

*Course Outcome(s)*: Using this Assessment Method, instructors will measure a student's ability in the following outcomes: 1, 2, 3, 4, 5, 6, 7

Required Assessment Method 4: Weekly interactive discussion boards REQUIRED for all and hybrid course sections.

*Course Outcome(s)*: Using this Assessment Method, instructors will measure a student's ability in the following outcomes: 1, 2, 3, 4, 5, 6, 7

Required Assessment Method 5: At least one of the supplemental assessment methods listed below (Instructor's choice)

*Course Outcome(s)*: Using this Assessment Method, instructors will measure a student's ability in the following outcomes: Fulfills outcomes associated with the supplemental assessment method that the instructor chooses as the fourth required assessment method

### **Supplemental Methods of Assessment:**

Supplemental Assessment Method 1: Participation / In-class assignments / activities

*Course Outcome(s)*: Using this Assessment Method, instructors will measure a student's ability in the following outcomes: 1, 2, 3, 4, 5, 6, 7

Supplemental Assessment Method 2: Quizzes &/or Exams

*Course Outcome(s)*: Using this Assessment Method, instructors will measure a student's ability in the following outcomes: 1, 2, 3, 4, 5, 6, 7

Supplemental Assessment Method 3: Oral or Written Presentation

*Course Outcome(s)*: Using this Assessment Method, instructors will measure a student's ability in the following outcomes: 1, 2, 3, 4, 5, 6, 7

Supplemental Assessment Method 4: Research Paper

*Course Outcome(s)*: Using this Assessment Method, instructors will measure a student's ability in the following outcomes: 1, 2, 3, 4, 5, 6, 7

### Supplemental Assessment Method 5: Socratic Seminar

*Course Outcome(s):* Using this Assessment Method, instructors will measure a student's ability in the following outcomes: 1, 2, 3, 4, 5, 6, 7

### Supplemental Assessment Method 6: Group Activity / Project

*Course Outcome(s):* Using this Assessment Method, instructors will measure a student's ability in the following outcomes: 1, 2, 3, 4, 5, 6, 7

### **Outline of Topics:**

Human Development

Prenatal Development and Birth

Infancy, Pre-School, Middle Childhood, Adolescence, Adulthood

Death, Dying and Bereavement

Physical, Socioemotional, Cognitive, and Personality Development

Single Life, Companionship, Marriage, Divorce, Remarriage

Differences in Growth and Development

Age

Gender

Theoretical Models of Development

## Methods of Assessment

Graded objects:

Points:

Discussion boards

16 @ 10 points each = 160

Current events assignments

2 @ 100 points each = 200

Application project	1 @ 100 points each =100
Reflective assignments	1 @ 100 points each =100
Exams on assigned readings	4@ 100 points each = 400
Total	960 points

## Course Expectations

As an on-line course, students enjoy some flexibility in determining when to submit assigned research papers and take tests. But as detailed in the section of this syllabus that addresses late work, it is obligatory that these graded objects be completed by their respective deadlines. For that reason, it is critically important that students read the course syllabus, all relevant posted announcements, and emails of each weekly unit to avoid the compromise of grade and learning that occurs from succumbing to a “just in time” strategy for submitting course work

In college-level courses, instructors have common expectations of their students: for example, that students have a degree of self-motivation, that students have interest in learning, that students are responsible and respectful, that students possess basic competence in digital technology. The following list includes other common expectations: that students:

- Have access to a computer
- Have access to the internet
- Know how to search for credible information online
- Can compose, send, receive, & reply to emails related to their courses
- Know how to attach files
- Know how to download files
- Can use word processing software
- Participate in in-class activities face to face to receive full credit OR
- Synchronously via Zoom only under special circumstances and only when planned for at least two hours in advance. If you have not received a confirmation before the class from the instructor, do not assume you can participate via Zoom.

## Communication Policy

Modules will identify assigned research assignments and upcoming tests. They will indicate the due dates for assignments and tests. Students should read those descriptions very carefully, since they contain critically valuable information for successfully addressing each unit's graded objects.

There will be additional announcements posted regularly throughout the term. These announcements will address topics to assist students with other course-related issues or identify "exceptional" events in the courses' progression.

Course distribution-list emails will be sent out, usually once a week, to remind students of unit obligations, and/or issues unique to that week's works.

Emails to individual students will be sent on an as-needed basis.

If a student has issues that cannot be resolved effectively by email, they will be invited to provide

a phone number for a follow-up phone conversation.

## Grading Policy and Timeframe

Research papers are due by the end of the period in which they are assigned, though they may be submitted earlier within that period. Instructor will explain the grade and provide additional constructive feedback for all submitted papers.

Tests are due within the period for which they are assigned, they will be auto-graded, and scores will appear in the Canvas Gradebook, usually within an hour of submitting a unit test (or its re-take.)

## Late Work, Revisions, and Extra Credit Policy

Research papers and tests must be submitted by their latest due date. Students will be reminded to take advantage of the module window for each to minimize the risk of missing the deadlines.
