Course Expectations

In college-level courses, instructors have common expectations of their students: for example, that students have a degree of self-motivation, that students have interest in learning, that students are responsible and respectful, that students possess basic competence in digital technology. The following list includes other common expectations: that students:

- Have access to a computer
- Have access to the internet
- Know how to search for credible information online
- Can compose, send, receive, & reply to emails related to their courses
- Know how to attach files
- Know how to download files
- Can use word processing software
- Participate in in-class activities face to face to receive full credit OR
- Synchronously via Zoom only under special circumstances and only when planned for at least two hours in advance. If you have not received a confirmation before the class from the instructor, do not assume you can participate via Zoom.

Participation and Attendance Policy

As an on-line course, students enjoy some flexibility in determining when to submit assigned research papers and take tests. But as detailed in the section of this syllabus that addresses late work, it is obligatory that these graded objects be completed by their respective deadlines. For that reason, it is critically important that students read the course syllabus, all relevant posted announcements, and emails of each weekly unit to avoid the compromise of grade and learning that occurs from succumbing to a “just in time” strategy for submitting course work.

- Please see WMCC's [Participation and Attendance Policy \(https://catalog.wmcc.edu/attendance\)](https://catalog.wmcc.edu/attendance)
- Please see WMCC's [Cancellation/Delayed Start Classes Policy \(https://www.wmcc.edu/academic-resources-for-students/#cancellation-delayed-start\)](https://www.wmcc.edu/academic-resources-for-students/#cancellation-delayed-start)

Communication Policy

Modules will identify assigned research assignments and upcoming tests. They will indicate the due dates for assignments and tests. Students should read those descriptions very carefully, since they contain critically valuable information for successfully addressing each unit's graded objects.

There will be additional announcements posted regularly throughout the term. These announcements will address topics to assist students with other course-related issues or identify "exceptional" events in the courses' progression.

Course distribution-list emails will be sent out, usually once a week, to remind students of unit obligations, and/or issues unique to that week's works.

Emails to individual students will be sent on an as-needed basis.

If a student has issues that cannot be resolved effectively by email, they will be invited to provide a phone number for a follow-up phone conversation.

Grading Policy and Timeframe

Research papers are due by the end of the period for which they are assigned, though they may be submitted earlier within that period. Instructor will provide explanation of the assigned grade and additional constructive feedback for all submitted papers.

Tests are due within the period for which they are assigned, tests are auto graded, and scores will appear in the Canvas Gradebook, usually within an hour of submitting a unit test (or its re-take.)

Late Work, Revisions, and Extra Credit Policy

Research papers and tests must be submitted by their latest due date. Students will be reminded to take advantage of the module window for each to minimize the risk missing the deadlines. In the event of a legitimate emergency, students should contact the instructor as early as possible to negotiate an alternative work delivery plan.
